the documents. Accessible videos. This is reason why we built this
whole player. Just a few figures. Just a few statistics on videos. Video
watching. Many of you may already know. Maybe familiar with. One
third of all online activity is watching video. And half of all the video
content is watched on our mobile devices. Tablets or phones. That is
interesting. Some of the big names, Facebook for example. 500
million people watching videos everyday. At 500 million hours every
day on YouTube. Let's incpasing. Pretty amazing. And then,
